# WTP PRODUCING CLEAR SOLUTIONS

We formulate and manufacture speciality chemical products for a wide range of water treatment applications. We have developed into a highly professional and respected business since our incorporation in 1999.

Products are manufactured in our own modern facility in South Wales, ideally placed for easy distribution to the UK and overseas markets. Our production facility is fully bunded, as is our loading and unloading yard.

Customer service is important to us and flexibility is at the core of our strategy. So whatever formulation, package size, delivery method, supply schedule and

support documentation you ask for, we will do all we can to satisfy your requirements.

We are geared to producing clear solutions, with the added benefit of ISO quality assurance. To maintain quality standards, we have total control of all formulations, the purchase of quality raw materials and the choice of packaging, right through to delivery. You can therefore be confident in receiving the very best products to match your individual requirements.

We have the experience, the technologies, the formulations and the expertise to ensure you get the right treatment every time.

## Experienced Manufacturer

We are a key supplier in the water treatment reseller market. With over 20 years experience in the industry and a total of 30 years in chemically related disciplines we believe we can meet your exact needs.

## Up to Date Technologies

We are committed to producing solutions, using up to date technologies and quality raw materials, to match the demands of today's environment. Our team are dedicated to producing the best for you and your customers.

## Tried & Tested Formulations

We have laboratory and test rig facilities. This allows us to continually extend our product range to respond to legislative changes and technological developments.

## Private Label Products

Formulations are created with individual labelling and packaging to suit your personal requirements. All products are supplied with own label MSDS and product information sheet. We have batch number traceability and samples are retained for two years.

## Choice of Pack Sizes

We offer you the choice of package options from 250ml bottles right through to IBC's. We also offer a pump-over service. There is a wide choice of packaging colours to enable you to complement your corporate style and look.

## Personal Service

Getting the right treatment everytime also applies to the service we provide. Whenever you contact us you can be assured that you will be dealt with in a friendly and efficient manner by one of our dedicated on-site staff.

## Rapid Ordering Processing

Orders can be placed by telephone, fax or email. All orders are normally processed the same day and our aim is to despatch within 5 to 7 days. We can also set up a 24 hour on-line facility for order placement.

## Confidentiality Guarantee

We have built our business on partnership development, professionalism and trust. We believe this is a fundamental prerequisite for both you and your customers. Our systems and procedures are geared to ensuring 100% confidentiality in all aspects of our trading relationship.

## International Expertise

As well as being a key supplier to the UK water treatment reseller market, we have also developed an international expertise. Our operations have been expanded to meet the demand from our ever-growing list of overseas customers.

Our international reputation has been built on a combination of market experience, manufacturing capability, technical support, effective solutions and customer service.

You can buy direct from WTP with total confidence, knowing that all products are manufactured and filled in our own plant. We load all goods at our own facility.

Containers and pallets are despatched under full ADR and IMDG regulations, to ensure a smooth and trouble free shipment. The DGN and shipping documents are prepared by our onsite DGSA (Dangerous Goods Safety Advisor). We also offer supporting documentation in the form of technical data sheets and MSDS under customer's own label.

Our experience, knowledge and expertise will provide the optimum chemical programme for your requirements which takes into account local regulations, no matter where you are based.

## Water Treatment Experts

We know the marketplace; we understand the problems, we are fully aware of the issues and have a full understanding and control of Health and Safety requirements.

Whatever the formulation, we can match your needs. We currently have in excess of 600 tried and tested formulations available, so whatever your requirements are; we will have the solution.

A continuous investment programme is in place to ensure that we respond to changes in legislation and technological developments.

We formulate and manufacture all products and these have been developed for a wide range of companies and applications. Whether the chemicals are for boiler water, cooling water, reverse osmosis, chlorination/disinfection etc you get the right treatment every time.

As part of the comprehensive service that WTP offers, we develop and manufacture a varied range of water analysis test kits and equipment.

We are experts in producing clear solutions for your water treatment requirements.

### Specialist Treatments

- Cooling Towers
- Steam Boilers
- Closed Circuit Systems
